

2026 JOINT AAPM | COMP MEETING

JULY 19–22 | VANCOUVER, BC

Want to visit the Exhibit Hall? This guide is designed to help you feel comfortable, prepared, and confident so you can focus on learning, connecting, and making the most of the AAPM-COMP Exhibit Hall experience.

What to Expect

The AAPM-COMP Annual Meeting & Exhibition brings together medical physicists from clinical, academic, and research settings for education, collaboration, and professional growth. The Exhibit Hall plays a key role in supporting clinical practice and informed decision-making.

Set Your Goals

Before you arrive, identify **2–3 goals** for your Exhibit Hall time: learning about products & solutions, exploring new technologies, or having focused conversations with industry partners.

The AAPM Exhibit Hall: Education, Exploration & Connection

The Exhibit Hall is designed as an **extension of education**—not a sales floor. It is a space where medical physicists can explore solutions, ask implementation-focused questions, and learn how products support patient safety, quality assurance, and innovation.

New to AAPM? Start with a Guided Tour

Exhibit Hall Guided Tours provide a structured, low-pressure way to experience the Exhibit Hall. Tours highlights select exhibitors, provide clinical context, and help first-time attendees navigate efficiently.

Vendor Showcases - Focused, Educational Demonstrations

Vendor Showcases are short, educational presentations held in the Innovation Room on the Exhibit Hall floor. They demonstrate real-world clinical workflows, highlight new technologies, and allow time for targeted questions in an intimate setting. See products or solutions demonstrated live and learn how tools are used in clinical or research environments.

Need a Break? Visit the Connection Lounge, A Space to Pause and Connect

The Connection Lounge is a comfortable, informal space within the Exhibit Hall to recharge and take a break between sessions, meet colleagues, or continue conversations started at booths or vendor showcases.

2026 JOINT AAPM | COMP MEETING

JULY 19–22 | V⁺NCOUVER, BC

How This Aligns with the Exhibitor Experience

Attendees are encouraged to explore, ask questions, and learn at their own pace. Exhibitors are prepared to provide education-focused conversations, demonstrations, and guidance—creating a respectful and productive experience for everyone.

After the Meeting

Review your notes, follow up with exhibitors or peers, and access session recordings to continue learning beyond the meeting.
